

Sanex to reconstruct the building and the site of Bratislava's grammar school

Author: SITA - Slovak News Agency | Published: 13.01.2009

Sanex, s.r.o. Spišská Nová Ves will reconstruct the grammar school on Grösslingova street in Bratislava within two years, at a price of EUR 7,060,000, incl. VAT. The company won this contract with the Autonomous Bratislava Region in a public procurement procedure that attracted four bids, with the lowest price being the sole criterion. The reconstruction will cover not just the school building, but also the fencing of the site and the water supply connection. The work will also include the relay of a hot-water pipeline, site lighting, adjustment of hardened areas and playing grounds and small architecture and landscaping. The applicable reconstruction contract was concluded on 1 December 2008.
