Cemos Designers Ltd., Bratislava is to work out and process documentation concerning the building permit for a project to extend Bratislava's Tomášikova Street in the segment between Vajnorská and Račianská Streets. At the same time this company will process documentation of tender blueprints concerning actual construction and supervise the construction work. The Bratislava-based company won the six-year contract worth about €315.34 thousand without VAT in a private select hearing. The Bratislava General Investor, in its capacity of public contract provider, said this option had been taken since no satisfactory bids were put forward in a public tender.
