

# Central Group: record-high profit

Author: SF / pb | Published: 17.03.2009

According to preliminary results, Central Group increased its gross profit to CZK 770 million in 2008. It is a record-high trading result during the company's whole existence. Compared to 2007, the profit grew by more than 20%. This year the company is celebrating its 15th year of operation on the market; over the time it has completed more than 100 residential projects. On this occasion, the company has prepared an extraordinary marketing offer, valid until the end of April. Its clients will obtain a new car of their choice for free with every flat or house in all of the locations on offer.
