518 new flats ought to grow-up at Košice. TH Stavbyt, s.r.o. Company plans to invest 53 mills Euro to their building-up at the Košice housing development Ťahanovce. As results from the investment program the investor intends to begin the building-up of flats in autumn this year, whereas its finalization is planned at the end of next year.

8 multi-storeyed flats should offer small and middle flats to potential interested parties. The entire area of flats ought to be almost 34 thousand m². On lower storeys there would also be created areas devoted to services. The investor wants to build-up flat houses on the area larger than 34 thousand m², whereas the built-up area ought to present 5.5 thousand m². The company plans to build-up 142 underground garages and 495 parking places in the area of flat houses.
