

Ingsteel will reconstruct the Bratislava winter stadium

Author: SITA - Slovak News Agency | Published: 19.05.2009

Ingsteel spol. s r.o. Bratislava is to provide the reconstruction of the O. Nepela Winter stadium in Bratislava at the price of 74.822 mills Euro, VAT included. The contractor was selected on the basis of one bid received in the amount of 62.876 mills Euro, VAT excluded. Work should be completed within 22 months, what means until February 2011. In subcontracting arrangements 50% of the work should be made by third parties- elaboration of project documentation, transshipment of traction mains and public lighting, a part of removal and demolition of concrete structures, disposal of hazardous waste, special footing, heavy-current and light-current distribution systems, technological equipment of objects. After two years the Ice Hockey World Championship is to take place partially in the stadium.
