Nearly 16.6 mills Euro required the construction of the 2nd phase of the shopping centre Centro Nitra near the Nitra Fairground Agrokomplex, launched by the investor - Zeon Company in March 2008. Official opening is going to be on May 15, however, due to the economic crisis, their operation units will open only a quarter of firms. The second phase will enrich the three years operating centre by 35 operating units - there are shops, 2 restaurants, 5 fast food establishments, post office, car wash, eye optics and pharmacy. 102 places will be added in the roof parking reaching the capacity to 832.

As said Marián Petřík, the director of Centro Nitra, the crisis had the impact on not all tenants - some increased revenues by 15 to 20 percentages in recent time. In the presence there is available 17 300 m² of rental area, in the 2nd phase will be added more than 7 000 m². 370 people will found work in over one hundred units.
