

Bratislava: the new training hall can be used prematurely

Author: SITA - Slovak News Agency | Published: 19.05.2009

The public can prematurely use the new training hall of the Vladimír Dzurilla Winter stadium in Bratislava Ružinov, which began building in April 2006, on the basis of the local building office permission. It is going to be officially opened today at the 05 pm. „We've issued the temporary approval decision, for the hockey and curling hall, which will be in force until a permanent license. This may be issued only when the land under the hall is resolved, "said the Ružinov mayor, Slavomír Drozd. These belong to the teaching hospital with policlinic Bratislava (FNsP). „We did not appeal against the temporary decision of the building office. This decision does not affect the court proceedings on the ownership of the lands on which the stadium and other buildings belonging to him are built-up, "said the FNsP spokeswoman Ruth Geržová. The hall with dimensions about 65×36 m may use hockey clubs and figure skaters for trainings. The ice surface has an auditorium for one hundred spectators, changing rooms, entrance hall with a buffet service for hockey gear.
