

# Penta wants to invest to new energy projects

Author: SITA - Slovak News Agency | Published: 22.06.2009

The investment group Penta announced through 100-percent subsidiary PPC Energy Group (PPC) the Pan European bidding for submitting investment opportunities in the energy field. The energy project should be 80 to 300 million Euro, with a new source of electrical power should range from 100 to 400 megawatts. "We want to send a clear signal that Penta knows to finance new projects also in the time of the crisis. Energy field belongs among defensive sectors, which are not fundamentally affected by the current crisis," said the general director of PPC Energy Group Jozef Sekerka.
