

# Reconstruction of the road near Strečno should cost 2.8 million Euro, VAT excluded

Author: SITA - Slovak News Agency | Published: 30.06.2009

Doprastav Bratislava Company is carrying out building works to improve the transport-safety situation on the congested 11-km road section of the I. class Strečno - Dubná Skala, where the third lane will be added necessary for the organization and management of transport as well as a space for maintenance activities associated with the road traffic safety. Investment costs represent the amount of 2.773 million Euro, VAT excluded. The estimated value of the construction works represented 2.789 million Euro, VAT excluded. Their share in the subcontracting relationship is around 36%. The works should be carried out within 2 months from the contract signing, under the terms of the competition.
