

# Turčianska Water Company plans the sewerage at Teplice

Author: SITA - Slovak News Agency | Published: 07.07.2009

Turčianska Water Company, a. s. Martin plans to build the sewerage and reconstruct the wastewater treatment plant (WWTP) at Turčianske Teplice and in the region of Horný Turec. The subject of the tender are building works for the sewerage construction in the town and its parts Turčiansky Michal, Diviaky, Dolná Štubňa, the construction of the water piping and the sewerage for individual house-building Zorkovce as well as the reconstruction of mechanical pre-treating of WWTP at Turčianske Teplice. It is envisaged that the project will be co-financed by EU from the Cohesion Fund, from the state budget of the Slovak Republic and from means of the final recipient.
