

Malacky plans to complete the sewerage for nearly 11 million

Author: SITA - Slovak News Agency | Published: 07.07.2009

The town of Malacky plans to reconstruct and complete the urban sewerage with the estimated value of the order of 10.911 million Euro, VAT excluded. Its subject is to be the existing pipeline reconstruction in the length of 4 239.2 m and completing the new sewerage pipeline of 16 751 m length. From this length 14 238.3 m will be gravity pipes and 2 467.7 m discharge pipes. The urban sewerage project should be completed within 24 months since the contract signing. It will be co-financed from the EU Structural Funds - the Operational program Environment, the axis Integrated protection and rational use of water as well as from the state budget and from the town's own resources.
