Kartik Company plans to build it in the cadastre of Sielnica municipality in the locality of Brestová - it will have the character of the urban ski resort. The investor plans to launch the construction of the sport-recreational area earlier this year and complete it in 2014. It should create roughly 32 new jobs. The investor plans to build a chair lift and three new ski lifts. The capacity of each lift will be 300, the chair lift 1 460 persons per hour. There will also raise a gym and tennis courts in the area. The capacity of the accommodation facility, which will have the character of the mountain hotel, should be 350 beds.
