The Slovak Road Administration announced the tender for construction works associated with the 3rd phase of the northern bypass of Trnava construction on the road of the 1st class n° 51. The estimated investment cost is 13.175 million Euro, VAT excluded. Works on the approximately 900-meter stage will take 2 years from closing the contract with future selected supplier. One over road crossing and 5 bridges will be a component of the stage. The contract ought to be financed by the European Regional Development Fund through the Operational Program for Transport.
