The Building Office in Bratislava Ružinov authorized the increase of the Retro multifunctional complex by 8 floors. The investor Centaurea should build the 25-storey tower instead of the 17-storey one on the site of the former Jadran shopping centre in Nevädzova Street. About a year ago the Ružinov mayor Slavomír Drozd disagreed with the raising. According to the city district, however, it is a change of construction before completion. The Magistrate appealed to the County Building Office against the Ružinov Building Office decision on the increase of Retro.
