

# Ružomberok: Construction of a sports and relaxation complex will be launched next year

Author: SITA - Slovak News Agency | Published: 06.10.2009

One of the biggest investments in Ružomberok, a sports and relaxation complex at the Klačno housing estate, will be launched next year. “The company we have selected will also provide for the zoning decision. We have also announced a tender for the preparation of documentation for the building proceedings and the actual implementation for selected facilities,” said Zdeno Keyzlar, director of Ružomberk City Hall’s Investments and Construction Department. The complex should include a skatepark, a football pitch, an athletics arena, a multipurpose playing field, tennis courts, a swimming pool, a restaurant, accommodation facilities as well as parking lots.
