

Penta wants to support financially new business projects

Author: SITA - Slovak News Agency | Published: 13.10.2009

Penta Investments established Venture Fund, through which wants to promote business projects. The Company has introduced in it 300 thousand Euro, while the minimum support to 1 project will be 30 thousand Euro. "We want to encourage start-ups who have courage and new, unique ideas, but lacking capital to implement them. In addition to financial participation in new projects will provide the know-how and experience," said managing partner of Penta Jaroslav Haščák. Projects should bring innovations and be prospective for the future and self-financed.
