Interested investors in Slovakia did not stop even in times of crisis. Already in the coming days, signing a further large investment contract should be announced, according to the director general of the Slovak Agency for Investment and Trade Development (SARIO), Juraj Kiesel. However, he did not want to concretize it. The agency has also developed another tens of projects with total investment in billions of Euro and over 10 thousand potential jobs. Just since May of this year they registered 65 new projects.
