

Bratislava: A new winter stadium for Lamač

Author: SITA - Slovak News Agency | Published: 05.01.2010

A winter stadium with training ice rink without stands will be built in Lamač in Bratislava on the premises of Súkromá obchodná akadémia Liberta (Private Business Academy) in Borinská street next year. The scheduled date of construction is March 2010, its completion within half a year. The proponent is the company ZLL-SPORT. The current business academy should be extended to an ice-hockey, figure-skating and curling oriented sports school. The disposition of the space is ice surface of 26×56 m with a gallery 2 m wide. A curling ice rink will be adjacent to the northern part of the hall, this will be designated for beginner ice-skating too.
