

Metrostav will build “gentlemen ´s“ shopping arcade

Author: SF / pb | Published: 01.03.2011

Pánská pasáž (Gentlemen ´s arcade), which is to be opened in spring 2011 (turn of April and May), will be the first commercial area in the Czech Republic targeted at men. The complexity of the offer of exclusive “men ´s“ shops concentrated in one place is exceptional in European context, too. The selection is subject to the preferences and interests of a clearly defined target group - men of various ages, professions and nationalities who share a desire to enjoy the best, to invest in their appearance, to be pampered. Gentlemen ´s passage with an area of more than 800 sqm will be accessible from Na Příkopě street and Ovocný trh. The property developer of this unique project is Metrostav a.s., the total investment has reached CZK 70 million.
