

ProLogis expands premises in Jirny

Author: SF / pb | Published: 19.04.2011

Logistics developer ProLogis announced the start of construction of two new bespoke industrial projects space in Central and Eastern Europe, with the total area of 41,000 sqm of storage space. In addition to the distribution centre in Poland, it will be 22,350 sqm in ProLogis Park Prague-Jirny located 20 kilometres east of Prague on the first exit from the D11 motorway. Completion is scheduled for Q4 2011. ProLogis also announced the sale of 15 hectares of surplus land in Jirny. The company still owns 38 hectares of land for the future construction of phase III and phase IV. The current construction on the area of 22,350 sqm will be the first in phase III in the park.
