Seven companies plan to invest over EUR 77 million in Slovakia. Thanks to this, over one thousand jobs will be created. Slovak Ministry of Economy (MoE) has already submitted investment incentive proposals for these investors to commenting proceedings. After government's approval they could get state subsidy totalling almost EUR 27 million.

Gallai & Wolff wants to build a production plant for bridge bearings and bridge expansion joints in the village of Klenovec, Rimavská Sobota district. CELLTEX Hygiene plans to build a new plant in the industrial park in Rožňava. Secop wants to introduce construction of a new product platform in Zlaté Moravce. It will be brand new technologies for production of components, compressor packaging and compressor assembly.

Johnson Controls International wants to expand its plant in Námestovo by more than EUR 19 million. Annually more than 2.6 million printed circuit boards for export will be produced there. Sungwoo Hitech Slovakia also plans to expand its plant in Žilina, where bodyshells for the automotive industry are made. Aspel Slovakia wants to expand its premises in Kežmarok, where plastic mouldings for the automotive industry are produced. Plastiflex Slovakia wants to expand its plastic mouldings plant too.
