Teremus Property, s.r.o. Company plans to build-up the Nový Teremus multifunctional object at Nitra cadastral locality Chrenová on the area almost 10 thousand m² at the price about 60 millions Euro. The company intends to start with the new multifunctional object building-up in the second quarter of this year, while its finalization is planned two years later.

The new multifunctional object ought to be composed from two 13-storied blocks and one 1-storied block. 215 residential flats ought to rise up in it, spaces for administrative and public facilities and a hotel facility. The residential flats will offer above 14.6 m² of used space to almost 600 thousand inhabitants. The administrative spaces ought to spread on the area of almost 140 m² and above 4.7 thousand m² will serve to the public facilities. The hotel facility will offer 197 beds. The underground parking garage involving 685 parking places is designed in the frame of the new building.
