

Chinese companies interested in instructural projects in Slovakia

Author: SITA - Slovak News Agency | Published: 22.12.2009

Chinese investors expressed interest in participating in large infrastructural and developer projects in Slovakia. Slovak Development and Trade Investement Agency (SDTIA, SARIO) informed about the their visit to the Slovak Ministry of Transport, Postal Services and Telecommunication in connection. „The Transcontinental Transit Terminal (T.T.T.) project which should ensure an important part of goods flow between North America, Europe and Asia as an alternative to sea transport, captured the Chinese entrepreneurs´ interest,“ said SARIO - the main project co-ordinator. They added Slovakia was visited by the Chinese firms which had participated in building the Bird´s Nest Olympic stadium or in realization of the Beijing airport.
